

Slide list for the pathology final exam 2019/2020

1. Anaemic infarction of the heart
2. Haemorrhagic infarction of the lungs
3. Liquefactive necrosis of the brain
4. Fat necrosis of the pancreas
5. Caseous necrosis
6. Fibrosis of the myocardium
7. Fatty change of the liver
8. Brown induration of the lung
9. Amyloidosis of the heart (Congo red)
10. Dystrophic calcification (atherosclerotic plaque)
11. Pulmonary edema
12. Organising arterial thrombus
13. Polyarteritis nodosa
14. Acute fibrinous pericarditis
15. Angioinvasive Aspergillosis of the lung
16. Acute ulcerophlegmonous appendicitis
17. Acute pseudomembranous colitis
18. Hashimoto's thyroiditis
19. Sarcoidosis of the lung
20. Foreign body granuloma
21. Squamous cell carcinoma of the lip
22. Cervical intraepithelial neoplasia (CIN)
23. Pigmented nevus of the skin
24. Cutaneous malignant melanoma
25. Colonic adenocarcinoma
26. Papillary carcinoma of the thyroid gland
27. Aortic dissection
28. Giant cell arteritis
29. Hepatic cavernous haemangioma
30. Infective endocarditis
31. Lymphocytic (viral) myocarditis
32. Diabetic glomerulosclerosis
33. Focal segmental glomerulosclerosis
34. Lupus nephritis
35. Acute pyelonephritis
36. Renal cell carcinoma, clear cell type
37. Wilms' tumor
38. Papillary urothelial carcinoma
39. Nodular hyperplasia of the prostate
40. Adenocarcinoma of the prostate
41. Pulmonary emphysema
42. Bronchopneumonia
43. Infant respiratory distress syndrome
44. Small cell bronchial carcinoma
45. Adenocarcinoma of the lung
46. Bronchial squamous cell carcinoma
47. Signet ring cell carcinoma of the stomach

48. Cirrhosis of the liver
49. Crohn's disease of the colon
50. Follicular hyperplasia, lymph node
51. Chronic lymphoid leukaemia, lymph node
52. Diffuse large B-cell lymphoma
53. Hodgkin's disease, nodular sclerosis
54. Acute myeloid leukaemia
55. Metastasis in a lymph node
56. Tubar gravidity
57. Leiomyoma of the uterus
58. Endometrioid adenocarcinoma
59. Dermoid cyst, ovary
60. Serous adenocarcinoma of the ovary
61. Seminoma testis
62. In situ ductal carcinoma and invasive (no special type) NST of the breast
63. Acute purulent meningitis
64. Viral encephalitis
65. Glioblastoma
66. Alzheimer's disease (Tau, B-amyloid)
67. Basedow-Graves's disease
68. Pheochromocytoma
69. Osteosarcoma
70. Rheumatoid arthritis
